EPISODE 74 END

Translator needed URGENTLY for Funouhan!

One of our translators, **Koala**, lost interest in ***Impossibility Defence*** (also known as ***Funouhan***), and after chapter 07 we're out of scripts. This means the series will go back into hiatus if no one applies to translate it. We have a full team for that, so we can get chapters out reasonably fast if only we find a translator. If you are interested, instructions for applying can be found below.

Editors and translators for other things are also needed!

One of our translators finished his first assignment and decided to take up ***Shounen Y***. We're going to relaunch this series from the first chapter, so we need motivated people to complete the team: a typesetter and a redrawer. The translator isn't incredibly fast, and the series is finished in Japan, so we'll do it at a laid-back pace (something like a chapter a month, unless he speeds up in producing scripts). We also need you to be willing to do the first three chapters even though a speedscanner has already done them (no redrawing, no proofreading, sketchy translation).

We also need a redrawer for ***God, you bastard, I wanna kill you!***

Our typesetting test is at: https://goo.gl/wv7KcU

The redrawing test is at https //goo.gl/qfnsc6. (You don't need to do the pages marked DIFFICULT. ***Shounen Y*** and ***God you bastard...*** are a little too hard for the general test, but not so hard that you need to do our full test in its entirety.)

We are also inviting translators for ***Psychic Odagiri Kyouko's Lies***. Our test is at https://i.imgur.com/THUEuuk.jpg .

For all positions except translation, applicants should bundle their tests in a compressed file (ZIP, RAR, 7Z, whatever), upload it to a cloud service and and either post the link in our home page (http://bit.ly/2kC40Zk) or send it to me as a PM (Wraith at deathtollscans.net). We expect them to be able to do a chapter in a week (it doesn't necessarily mean you'll be required to do so - it will depend on the project, though we expect proofreaders to be faster than the other team members). We've had compatibility issues with GIMP files before, so we require applicants to use Photoshop. For translators, just send me the link to the script, no need to compress it.

People with experience who want to bypass the test on account of having samples of past work will have the test replaced by an actual chapter of the series they want to work on. This still means it is a test. If you fail, the chapter edited by you won't be used. It's high risk (having an entire chapter discarded because you didn't pass), high gain (working on something that will actually be used instead of a test). People without experience can't take that route, at least in principle. (If you contact me and I am in a good mood, I may let you have a try at your own risk, but don't count on it.)

Prospective translators are advised to cultivate patience in the beginning. New projects in a small group like ours begin without a full edition staff. If you join, you'll be asked to produce at most a couple of scripts to produce bait chapters to fish for editors. Releases may take a while to become regular as we assemble a dedicated team.

And you know what? I don't care anymore. Let's dive deeper in trouble. If you are a translator out there, reading these lines now, how about joining in to translate a certain medieval fantasy shounen that's currently on hiatus? If you are interested, just submit a test and we'll see what we can do about it. - *Wraith*
